

TACMIS Bulletin

Vol. VI No. 1

April 1997

From the Project Officer

Effective 1 August 1996, the COTS/NDI ADPE maintenance process has been published in AR 750-1, change 1. It details the Department of the Army, Deputy Chief of Staff for Logistics (DA, DCSLOG) approved maintenance concept for centrally procured COTS/NDI ADPE, which was implemented 1 October 1994. The process outlined in AR 750-1 applies to the hardware procured by PO TACMIS in support of STAMIS programs.

This Bulletin will serve to re-acquaint you with the procedures that are in place to support COTS/NDI maintenance. We published a series of articles and questions and answers relative to the process in the April 1996 Bulletin. This year, we are providing a supplement to the Bulletin titled "Maintenance and Supply Reference Guide for TACMIS Managed Systems." This supplement will serve as a handy reference on warranty and post-warranty maintenance procedures, as well as supply information relative to the STAMIS programs.

Our primary vehicle that supports the STAMIS is the STAMIS Computer Contract (SCC), administered by the Project Officer, STACOMP. The STACOMP article, "Follow-on SCC II Status", outlines our current efforts in that area to continually meet STAMIS needs. The "RFID Effort" and "Follow-on AIT", AIT articles will outline our efforts in the Automatic Identification Technology (AIT) arena.

Hopefully, this issue will provide useful information to you, the user, regarding maintenance of your COTS/NDI equipment in tactical military environs. We are committed to providing you with quality systems and services and welcome your comments and questions.

Robert A. Ragans
PO TACMIS

Maintenance And Supply Reference Guide For TACMIS Managed Systems

(Supplement to the TACMIS Bulletin)

PO TACMIS has heard your requests for additional information on maintenance and warranty procedures. Enclosed you will find more information than you really wanted to know, so remember.....you asked for it. Any questions on the "Maintenance and Supply Reference Guide," please call Steve Tkac at DSN 656-3115.
